

MANUAL TESTING

TEST PLAN:

My plan for testing is to play the game a number of times to see how it functions and to find any bugs or errors within the game.

TEST CASE:

Testing buttons to make sure they operate properly.

STEPS:

DRAW BUTTON: should offer multiple different options of card/characters to choose from.

ADD TO DUO BUTTON: should add whatever character/card you choose to your duo, or characters.

DUEL BUTTON: should then begin the match with your chosen character/cards.

PLAY AGAIN BUTTON: should take you back to the home screen giving you an option to draw again.

SEE ALL BOTS BUTTON: should show you a list of all possible bots(characters/cards)

BUG REPORT:

404 error (bad request): botsArr is not defined.
